

Regional Consultative Forum

A border can be a barrier, but it can also be a gateway, an opportunity and a resource! Cross-border cooperation has the potential to transform border into a possibility for development. This is particularly important in the case of the border region between Bulgaria and Turkey, being on the external border of the European Union. The future of this region will depend on coordinated action to exploit the opportunities and tackle the challenges.

Which topics call for cross-border co-operation? How can the IPA CBC Programme Bulgaria - Turkey 2014-2020 contribute to the development of the region?

An important step in preparing the new Programme is to seek the views of stakeholders on the shape and content of the future programme. The wide public consultations shall contribute to the programming with experience and know-how. Furthermore, it shall help to identify specific demands and expectations towards the new programme among potential target groups.

The IPA CBC Programme Bulgaria - Turkey invites its stakeholders to:

- Learn about results of the situation and SWOT analysis, which has taken place in the last months.
- Match experts' findings with practitioners' reality and needs.
- Define the fields in which cross-border cooperation is needed.
- Discuss the Programme's thematic concentration (selection of thematic/investment priorities).
